BUILT-IN TRUST FOR AGE-RESTRICTED AND REGULATED SITES

WHY YOU MAY NEED IDENTITY OR AGE VERIFICATION

If your business sells restricted products, collects sensitive data, or operates in a regulated space — you may be legally required to verify your users.

Without proper protections, businesses risk:

- Legal penalties for serving underage or unauthorized users
- Fraud, chargebacks, or blocked transactions
- Rejected by payment processors, ad platforms, or hosting providers
- Brand damage from privacy or compliance violations

Protecting your business now prevents costly problems later.

OUR RECOMMENDATION

To address this, we recommend Token of Trust — a lightweight, privacy-first solution for identity and age verification. It integrates directly with your website (WordPress, Shopify, WooCommerce) — no custom development needed.

This solution is trusted across industries like:

- Vape, cannabis, and adult products
- Healthcare and telehealth
- Web3, marketplaces, and online finance
- Gaming, education, and more
- Elearning

WHAT TOKEN OF TRUST ENABLES

✓ Verify users via government ID, facial recognition, or trusted data
✓ Enforce age gates, geographic restrictions, and regulatory rules
✓ Meet KYC, AML, GDPR, HIPAA, or PACT Act obligations
✓ Reduce risk of fraud, chargebacks, or account takeovers
✓ Works with WordPress, Shopify, WooCommerce — no custom code required

BUILT-IN TRUST FOR AGE-RESTRICTED AND REGULATED SITES

tokenoftrust

WHY WE RECOMMEND IT

We've vetted Token of Trust because it offers:

- Installs quickly — no dev lift required
- Scales with your compliance needs
- Respects user privacy
- Backed by reliable, compliance-savvy support

It helps us launch secure, future-proof sites — and avoid costly compliance rework down the road.

NEED HANDS-ON HELP?

As your development partner, we'll handle the installation and configuration of Token of Trust's Shopify plugin — so your store is fully equipped for identity verification and compliance from day one.

Behind the scenes, the Token of Trust team provides:

- Expert guidance to align the setup with your customer flow and brand
- Support for age and identity verification across relevant compliance standards
- Hands-on implementation assistance to ensure everything runs smoothly from the start

Our team will handle the implementation. Should your needs grow or change, Token of Trust is available to provide direct support whenever it's required.
